

In observance of Infant Mortality Awareness Month
ACTION OHIO COALITION FOR BATTERED WOMEN
Presents Free Webinar

CenteringPregnancy©
Pre- & Post-Natal Group Care Model

Presented by

Donna J Collier-Stepp, MSW, LISW-S, CGF
Adena Health System, Chillicothe

Friday, September 16th
1:00 PM – 2:00 PM

Evidence Based Effectiveness Outcomes:

Increased birth weight & gestational age of Mothers (who deliver preterm) & satisfaction with group care model expressed by both women and providers. Also, there is evidence that group model provides supportive benefits for women experiencing domestic violence and/or recovering from substance abuse & addiction.

To Register:

CenteringPregnancy© is a multifaceted model of group pre- & post-natal care that integrates three major components into a unified program in a group setting. Women with similar gestational ages meet, learn care skills, participate in facilitated discussion & develop a support network. The model includes 13 Essential Elements. Evidence of the effectiveness of this model includes increased birth weight & gestational age of mothers who deliver preterm & the satisfaction expressed by both the women & their providers.
