Questions to be answered:

Why is domestic violence a healthcare
issue – especially in the ED?

Do men ever become victims?

How to prepare when the abuser
accompanies the victim?

What are the high risk indicators?

What is the best way to begin the
screening process with the victim?

Do victims readily disclose?

What is the best response when the
victim's answer is No?

Or when the answer is Yes?

**Screening for DV effectively can save lives!
You need to be prepared.**

Application pending for 1 CSWMFT CEU. Nurses may apply CEUs to their CE requirements.
