Whenever you visit an Internet site, your "IP address" is recorded by the host server. With this information, the host server records visits to each page and broad demographic information regarding each visitor. Our host server (InfoTeam) makes this information available as a report to ACTION OHIO upon request. The report does not provide us with names, e-mail addresses or mailing addresses. The report simply reflects pages of greater interest to visitors and the general locations of the visitors. Generally speaking the value of this information is short term and it is not kept on a long term basis.

On certain web pages, visitors have the option of utilizing an ACTION OHIO form. You make the choice of disclosing your personal information for a specified purpose to us or not. You may order a product or offer to serve as a volunteer, for example. The information is used for the purpose intended, kept on file if appropriate and discarded when appropriate. ACTION OHIO does not share any information you provide to us without your permission. Furthermore, ACTION OHIO does not sell, rent, loan or give personally identifiable user information collected from you to marketers or any third parties.

Making the links available to you is not intended as an endorsement or recommendation. Linked sites may collect information about you when you visit their sites.
